A Necessity of the Day.

Few minor inventions have been so readily appreciated and come so quickly into general use as the stylographic pen. None who have used one will ever be contented with any less convenient apparatus for writing, and in short time there will be few who have occasion to write at all who have not adopted it. The general principal of the stylographic pen is so familiar as to require no explanation. We have made trial of various kinds, but have found none to equal the improved Livermore Stylographic Pen, which combines all the advantages of other makes. It is convenient to use, writes with any kind of good ink and is practically indestructible. Sold at first for \$3 each, the price has recently been reduced to \$2 for plain pens, with fifty cents extra for gold mounted. By sending that amount to Louis E. Dunlap, Manager Stylographic Pen Company, 290 Washington street, Boston, a pen, together with a package of superior ink will be sent by return mail, and the money will be at once refunded if they do not prove perfect in every respect.—Morning Mail, Lowell, Mass.
